

<b>Comparison of MR Standards and Common Core Standards for Mathematical Practices</b>	
<b>2<sup>nd</sup> Grade MR Standards</b>	<b>Common Core Standards for Mathematical Practices</b>
<p>2.1 Defend the reasoning used and justify the procedures selected.</p> <p>3.0 Students note connections between one problem and another.</p> <p>2.2 Make precise calculations and check the validity of the results in the context of the problem.</p>	<p>They justify their conclusions, communicate them to others, and respond to the arguments of others. (SMP 3)</p> <p>They continually evaluate the reasonableness of their intermediate results. (SMP 8)</p> <p>...students look closely to discern a pattern or structure. (SMP 7)</p> <p>They calculate accurately and efficiently, express numerical answers with a degree of precision appropriate for the problem. (SMP 6)</p> <p>...explore the truth of their conjectures. (SMP 3)</p> <p>...take into account the context from which the data arose. (SMP 3)</p>
